# INTRODUCTION

When my good friends at Hal Leonard first approached me about writing this book, they already had a title, *Guitar Aerobics*, and a topic, guitar technique, in mind. Other than those two details, however, they kindly gave me carte blanche to create the rest. One thing was certain: I did not want to introduce another run-of-the-mill technique book to the guitar-publications marketplace, one that was filled cover to cover with bland chromatic exercises that ran senselessly up and down the fretboard. Instead, I wanted to devise a guitar-technique book that at once helped the reader develop, improve, and maintain his/her guitar chops via musical examples that could be applied to real-world musical settings, from rock and blues to jazz and country. And most importantly, I wanted to create a book that was *fun*! Too often practice sessions become monotonous due to the lack of uninspired materials from which to learn. With *Guitar Aerobics*, that's no longer the case.

*Guitar Aerobics* is the ultimate workout program for guitarists, promoting guitar facility, increasing pick- and fret-hand speed and accuracy, and improving dexterity while at the same time increasing lick vocabulary. The 52-week program covers one indispensable guitar technique each day—*alternate picking* on Monday, *string skipping* on Tuesday, *string bending* on Wednesday, *arpeggios* on Thursday, *sweep picking* on Friday, *legato* on Saturday, and *rhythm* on Sunday—all of which are presented within the context of either an applicable guitar lick or an exercise that is considerably more musical than the chromatic exercises found in other technique books. Moreover, because each example fits into one of six musical styles—rock, blues, jazz, metal, country, or funk—once you've got the lick down cold, you can test drive it at your next jam session, whatever style of music you play.

*Guitar Aerobics* is systematically arranged so that each week the musical examples increase in difficulty. If you consider yourself a beginner, you can jump right into Week 1 and feel perfectly comfortable playing the material. Consequently, you'll have an entire calendar year of material—365 exercises—to practice! At approximately Week 18, the material is more appropriate for players of an intermediate level. And Week 36 marks the entry point for those players who possess considerable chops (i.e., advanced). If you fit in the last category, that's still 120 exercises to get through! *Guitar Aerobics* offers something for everyone.

Additionally, each exercise includes a brief description—origin, scale(s), rhythms, etc.—as well as a performance tip. And true to the book's "workout" theme, all of the exercises come with a practice routine that is divided into eight sets, each of which contains a specific tempo (e.g., 112 beats per minute) at which to play the exercise. Ten repetitions ("reps") are played per set, with the tempos increasing at various increments from one set to the next, depending on the exercise's musical style. For example, here's how to perform the Rock/Blues workout:

## ROCK/BLUES WORKOUT

### CD2 • Tracks 1–8

<b>Set 1:</b> 40 bpm x 10 reps	<b>Set 5:</b> 84 bpm x 10 reps
<b>Set 2:</b> 48 bpm x 10 reps	<b>Set 6:</b> 96 bpm x 10 reps
<b>Set 3:</b> 58 bpm x 10 reps	<b>Set 7:</b> 108 bpm x 10 reps
<b>Set 4:</b> 72 bpm x 10 reps	<b>Set 8:</b> 120 bpm x 10 reps

Each exercise is labeled with a genre and track listing, which together denote the workout you should follow.

Every musical example in *Guitar Aerobics* (365 in all) can be heard on CD1 of the two accompanying audio CDs, with all of the 52 weeks separated onto individual tracks. Therefore, you can quickly cue up a specific lick to hear how it should sound. Tuning notes (low to high, E–A–D–G–B–E) are also included on the final track of CD1. CD2 contains rhythm tracks (drums only) performed at a variety of tempos dictated by their respective genre, including straight rock/blues, blues shuffle, jazz swing, funk, country, and metal. So throw away your metronome—now you've got a real drummer to keep time!

If you devote just a few minutes of each day to practicing the examples in this book, I guarantee that you'll notice immediate improvements in your guitar technique. By the time 365 days have passed, your chops will be second to none. Personally, I noticed considerable improvement in my technique during the writing of this book—and I didn't follow the workout program! All that it takes is a little time, dedication, and determination. Good luck!

# THE TECHNIQUES

As I mentioned previously, seven techniques—alternate picking, string skipping, string bending, arpeggios, sweep picking, legato, and rhythm—are covered in *Guitar Aerobics*, one technique for each day of the week. Although there are many guitar techniques that are *not* presented in this book, I believe these seven techniques are the most essential for guitarists. Mastering these techniques will reduce limitations and equip you with the tools necessary to achieve the goals you have set for yourself on the instrument.

Here, now, is a brief overview of the techniques presented in this book:

**Alternate Picking:** No technique is more prevalent—and of greater benefit—than alternate picking. A fundamental guitar technique, it can be applied to any musical context and is *the* technique that separates the men/women from the boys/girls. On these pages, the technique, a continuous alternation of downstrokes and upstrokes with your pick hand, is applied to everything from rock and blues to jazz and country.

**String Skipping:** Most commonly associated with rock and metal, string skipping is also quite useful when playing other forms of music. The predominant focus of the string-skipping examples in this book is that of single- and double-string skips within the context of blues, jazz, rock, and metal.

**String Bending:** These examples, which mostly consist of blues, country, and rock licks, feature quarter-step, half-step, and whole-step bends, as well as more sophisticated bends such as oblique, unison, compound, and pre-bends.

**Arpeggios:** Although an “arpeggio” in and of itself is not a technique, the coordination of right- and left-hand movements used to perform one certainly qualifies. The definition of an *arpeggio* is “a chord whose notes are played in rapid succession rather than simultaneously,” and the examples herein illustrate that in practically every possible combination on the neck, from simple open position-chord combinations to advanced sweep-picking concepts. Which brings us to our next technique...

**Sweep Picking:** The polar opposite of alternate picking, sweep picking involves using one continuous down or upstroke to play two or more adjacent-string notes. Although most of the examples in *Guitar Aerobics* apply to rock and metal, you will find a few interesting examples of how to apply this technique to jazz and blues as well.

**Legato:** On the guitar, legato technique involves pull-offs, hammer-ons, slides, finger tapping, or any combination hereof. Basically, legato is any collection of two or more notes on the same string that isn’t articulated with a succession of pick attacks. A wide variety of such licks is included on the following pages.

**Rhythm:** Much like an arpeggio, “rhythm” isn’t a single technique, but rather a collection of techniques used to perform various functions as they relate to a specific rhythmic style. A few of the topics covered in *Guitar Aerobics* include basic strum patterns, open-chord arpeggios, boogie patterns, walking bass lines, and much more.

# WEEK 1

CD1 • TRACK 1

**M  
O  
N**

## Exercise: #1

**CD2 • Tracks: 9–16**

### Technique: Alternate Picking

**Genre:** Metal

**Music Description:** Performed exclusively in sixteenth notes on the first string, this lick makes its way up the neck by utilizing every note of the E harmonic minor scale (E–F♯–G–A–B–C–D♯).

**Tip:** Reverse your picking pattern after playing through the lick a few times, beginning with an upstroke.

**J = 40-112**

Em

0:00T  
U  
E

## Exercise: #2

**CD2 • Tracks: 1–8**

### Technique: String Skipping

**Genre:** Rock/Blues

**Music Description:** This exercise is based in the root position of the A minor pentatonic scale (A–C–D–E–G) and skips a string between each note pair.

**Tip:** Throughout the figure, keep your index, middle, ring, and pinky fingers positioned at the fifth, sixth, seventh, and eighth frets, respectively.

**♩ = 40-120**

Am or A7

0:11

**W  
E  
D**

### Exercise: #3

**CD2 • Tracks: 1–8**

### Technique: String Bending

**Genre:** Rock/Blues

**Music Description:** This descending lick is also based in A minor pentatonic and features whole-step bends on the second and third strings.

**Tip:** Reinforce each bend with fingers not directly performing the bend. For example, when executing the third-string bend in measure 1, reinforce your ring finger your middle and index fingers.

**♩ = 40-120**

Am or A7

The image shows a musical score for the song "Amorosa" by The Beatles. The score is written for a 12-string guitar. The guitar part is in 4/4 time, key of D major, and includes a "pick" instruction. The bass part is in 4/4 time and includes a "TAB" instruction. The score is for a 12-string guitar.

**Music Description:** This is a simple arpeggio exercise that features the notes of open-position G, D, and C chords played individually.

**Tip:** Although a single downstroke (sweep) with your pick hand is more efficient when performing this exercise, practice alternate picking it as well.

♩ = 40-120

G D C G

pick: V or: let ring throughout

TAB: 3 2 0 0 0 2 3 2 3 2 0 0

0:33

### Exercise: #5 CD2 • Tracks: 9-16

Technique: Sweep Picking

Genre: Metal

**Music Description:** This two-bar sweep-picking workout features diatonic triads in the key of G played exclusively in triplet rhythms on the top three strings.

**Tip:** To keep the notes of each chord from ringing together (you want them to sound separately), release some—or all—of the pressure from the finger fretting the note(s) once each note has sounded.

♩ = 40-112

G Am Bm C D Em F#o G

pick: V

TAB: 4 3 3 5 5 5 7 7 7 9 8 8 11 10 10 12 12 12 14 13 14 16 15 15

0:44

### Exercise: #6 CD2 • Tracks: 1-8

Technique: Legato

Genre: Rock/Blues

**Music Description:** This straightforward lick uses hammer-ons to connect the note pairs on each string as it ascends the A minor pentatonic scale.

**Tip:** As you hammer on to the second note of each string, simultaneously shift your index finger to the first note of the higher, neighboring string.

♩ = 40-120

Am or A7

pick: V

TAB: 5 8 5 7 5 7 5 7 5 8 5 8 5

0:56

### Exercise: #7 CD2 • Tracks: 1-8

Technique: Rhythm

Genre: Rock

**Music Description:** The chord fragments used in Thursday's arpeggio exercise (#4) are played here as full chords, in quarter-note rhythms.

**Tip:** Keep your ring finger planted on the third fret of the second string as you change from G to D. Also, use downstrums throughout.

♩ = 40-120

G D C G

strum: V

TAB: 3 2 0 0 0 2 3 2 3 2 0 0

1:07

# GUITAR AEROBICS

# WEEK 2

CD1 • TRACK 2

MON

0:00

**Exercise: #8**

CD2 • Tracks: 9–16

Technique: Alternate Picking

Genre: Metal

**Music Description:** This lick is nearly identical to the one played last Monday (#1). The only variation is in the rhythm: Last week's lick was straight sixteenth notes, whereas this lick features a galloping, eighth-and-two-sixteenth-notes rhythm.

**Tip:** Use a strict down-down-up picking pattern throughout.

♩ = 40–112

Em

TUE

0:12

**Exercise: #9**

CD2 • Tracks: 1–8

Technique: String Skipping

Genre: Rock/Blues

**Music Description:** Similar to last Tuesday's exercise (#2), this phrase borrows its notes from A minor pentatonic and skips a string between each note pair. This time, however, you're working your way down the scale.

**Tip:** Best results are achieved by using strict alternate picking, beginning with a downstroke.

♩ = 40–120

Am or A7

WED

0:23

**Exercise: #10**

CD2 • Tracks: 1–8

Technique: String Bending

Genre: Rock/Blues

**Music Description:** Releases have been added to the bends performed in last week's lick (#3).

**Tip:** Pay attention to this figure's rhythm, being careful not to rush each bend and release.

♩ = 40–120

Am or A7

THU

**Music Description:** This exercise is the descending version of last Thursday's arpeggio workout (#4).  
**Tip:** A single upstroke (sweep) will work best when performing this exercise, but, like last week, alternate picking is encouraged as well.

0:35

♩ = 40-120

G D C G

pick:  V  V  V  V

or:  V  V  V  V

let ring throughout

TAB: 3 0 0 0 2 3 2 0 0 1 0 2 3 0 0 0

FRI

**Exercise: #12** CD2 • Tracks: 9-16 **Technique:** Sweep Picking **Genre:** Metal  
**Music Description:** The rhythms and notes are identical to last Friday's exercise (#5); however, this time the sweeps are all upstrokes.  
**Tip:** Experiment with both the ring and middle fingers of your fret hand when playing the top note of the F#° chord in measure 2. Use whichever feels most comfortable.

0:46

♩ = 40-112

G Am Bm C D Em F#° G

pick:  V  V  V  V  V  V  V  V

TAB: 3 3 5 5 7 7 8 8 10 10 12 12 14 13 15 15 16

SAT

**Exercise: #13** CD2 • Tracks: 1-8 **Technique:** Legato **Genre:** Rock/Blues  
**Music Description:** This blues-rock lick is the descending, pull-offs version of last Saturday's exercise (#6).  
**Tip:** To get the second note of each pair to sound as loud as the first, use a downward plucking motion when executing the pull-off.

0:57

♩ = 40-120

Am or A7

pick:        

TAB: 8 5 8 5 7 5 7 5 7 5 8 5 5

SUN

**Exercise: #14** CD2 • Tracks: 1-8 **Technique:** Rhythm **Genre:** Rock  
**Music Description:** This exercise features the same G-D-C-G chord changes as last Sunday's example (#7), only here the rhythm is straight eighth notes.  
**Tip:** If you're having trouble making a smooth transition between chords, try lifting your hand off of the fretboard on the "and" of beats 2 and 4 of each measure. Don't worry about the open strings ringing; instead, focus on getting your fret hand to the next chord.

1:00

♩ = 40-120

G D C G

strum:

# WEEK 3

CD1 • TRACK 3

MON

0:00

**Exercise: #15**

CD2 • Tracks: 9–16

**Technique:** Alternate Picking**Genre:** Metal

**Music Description:** A continuation of Exercises #1 and #8 from the previous two Mondays, this exercise's only modification is its rhythm, which, here, is groupings of two sixteenth notes and an eighth note on each beat.

**Tip:** A down-up-down picking pattern on each beat is ideal for this example.

♩ = 40–112

Em

TUE

0:12

**Exercise: #16**

CD2 • Tracks: 1–8

**Technique:** String Skipping**Genre:** Rock/Blues

**Music Description:** This lick is a variation of the ascending, play-two-notes-skip-one-string pattern (all within the framework of A minor pentatonic) from Exercise #2, only here the notes are played in reverse order.

**Tip:** This exercise is a bit more difficult for the fret hand to perform than the previous two string-skipping figures, so take extra reps at slower tempos, if necessary, before moving on.

♩ = 40–120

Am or A7

WED

0:22

**Exercise: #17**

CD2 • Tracks: 1–8

**Technique:** String Bending**Genre:** Rock/Blues

**Music Description:** This bending exercise is identical to the one from Week 1 (#3), except that the whole-step bends have been replaced with whole-step pre-bends and releases (the note is bent up one whole step before it's picked, and then released to its original pitch).

**Tip:** Practice achieving proper intonation (hitting the target notes) on the pre-bends before attempting to play the entire lick.

♩ = 40–120

# GUITAR AEROBICS

# WEEK 4

CD1 • TRACK 4

MON

## Exercise: #22

**CD2 • Tracks: 9–16**

### Technique: Alternate Picking

**Genre:** Metal

**Music Description:** This version of the E harmonic minor exercises of the past three weeks contains eighth-note triplet rhythms, which subdivide each beat into three equal parts.

**Tip:** Go slowly at first, and notice that, because of the triplets, the picking direction alternates between downstrokes and upstrokes on each downbeat.

**♩ = 40-112**

Em

0:00T  
U  
E

### Exercise: #23

**CD2 • Tracks: 1–8**

## Technique: String Skipping

**Genre:** Rock/Blues

**Music Description:** Staying within the A minor pentatonic scale as in the previous string-skipping exercises, this phrase works its way down the scale, skipping a string between every other note pair.

**Tip:** Begin shifting your index finger to the next string as soon as your pinky or ring finger hits the second note on each string.

 $\dot{J} = 40-120$ 

Am or A7

pick: 5 8 5 7 5 8 5 7 5 7 5 7 5 8

TAB

0:12W  
E  
D

### Exercise: #24

**CD2 • Tracks: 1–8**

### Technique: String Bending

**Genre:** Rock/Blues

**Music Description:** This exercise introduces two things: a whole-step bend on the first string performed with your pinky or ring finger and a half-step bend on the third string performed with your index finger.

**Tip:** That half-step bend is trickier than it seems; it's easy to fall flat or push it sharp. Play the target note, C#, at the sixth fret of the third string to check your intonation.

**♩ = 40-120**

A7

**Music Description:** This figure features the same G–D–C–G progression that has been used the previous three weeks; however, this time barre chords are utilized to voice the arpeggios.

**Tip:** Bar your index finger across all six strings when playing each arpeggio/chord.

**J = 40-120**

G D C G

pick: ☐ V ☐ V ☐ V ☐ V

or: -----

let ring throughout

TAB

3 5 5 4 10 12 12 11 8 10 10 9 3 5 5 4

### Exercise: #26

CD2 • Tracks: 9–16

### Technique: Sweep Picking

**Genre:** Metal

**Music Description:** This exercise is the descending version of last Friday's sweep-picking workout (#19).

**Tip:** The most efficient way to play each four-note grouping is by picking the first note with a downstroke and the last three notes with an upwards sweep.

**J = 40-112**

## Exercise: #27

**CD2 • Tracks: 1–8**

### Technique: Legato

**Genre:** Rock/Blues

**Music Description:** Hammer-ons are used to connect the note pairs of each string while descending the A minor pentatonic scale in root position.

**Tip:** Be careful not to rush the hammer-ons; even eighth notes should be played through beat 2 of measure 2.

♩ = 40-120  
Am or A7

pick: □

TAB

### Exercise: #28

**CD2 • Tracks: 1–8**

### Technique: Rhythm

**Genre:** Rock

**Music Description:** The familiar G–D–C–G chord progression is the foundation for this exercise. The only difference between this example and last Sunday's exercise is the addition of two sixteenth notes on beats 1 and 3 of each measure.

**Tip:** Count each beat as “one-ee-and-uh, two-ee-and-uh” etc., and strum your pick hand accordingly; however, refrain from making contact with the strings on the “uh” of beats 1 and 3 and the “ee” of beats 2 and 4 of each measure.

# WEEK 5

CD1 • TRACK 5

MON

0:00

**Exercise: #29**

CD2 • Tracks: 1-8

Technique: Alternate Picking

Genre: Rock/Blues

**Music Description:** This alternate-picking exercise runs straight up the A minor pentatonic scale, back-tracking only once (beat 3 of measure 2).

**Tip:** Once you're comfortable alternate picking the example starting with a downstroke, reverse your action and start with an upstroke.

♩ = 40-120

Am or A7

TUE

0:11

**Exercise: #30**

CD2 • Tracks: 1-8

Technique: String Skipping

Genre: Rock/Blues

**Music Description:** The ubiquitous A minor pentatonic scale provides the framework for this next string-skipping exercise, a descending "sawtooth" line.

**Tip:** You might find it easier to perform this figure by starting with an upstroke in the first measure and reversing your picking direction in the second measure, starting with a downstroke.

♩ = 40-120

Am or A7

WED

0:23

**Exercise: #31**

CD2 • Tracks: 1-8

Technique: String Bending

Genre: Rock/Blues

**Music Description:** Half-step bend-and-release moves on strings 1-3 are introduced in this next figure.

**Tip:** Like last Wednesday's lick (#24), be careful not to over-bend, causing the note to go sharp.

♩ = 40-120

0:34

**Music Description:** Don't let the tab staff fool you—these are the same barre chords from last Thursday's exercise (#25), only this time they're arpeggiated from high to low.

**Tip:** Like last week, bar all six strings with your index finger, forming the entire chord shape.

♩ = 40-120

### Exercise: #33

**CD2 • Tracks: 9–16**

### Technique: Sweep Picking

**Genre:** Metal

**Music Description:** Except for the hammer-on, this figure is identical to Exercise #19 from Week 3. The hammer-on allows you to play all four notes with one pick motion.

**Tip:** Use a downward sweep to articulate the first three notes of the four-note grouping and then hammer onto the fourth note.

SAT

### Exercise: #34

**CD2 • Tracks: 1–8**

**Technique:** Legato

**Genre:** Rock/Blues

**Music Description:** Featuring slides and hammer-ons, this lick climbs up the extended form of the A blues scale (A-C-D-E<sup>b</sup>-E-G).

**Tip:** Pay close attention to the rhythm, because it features a mixture of quarter notes, eighth notes, and triplets.

# SUN

### Exercise: #35

**CD2 • Tracks: 1–8**

**Technique:** Rhythm

**Genre:** Rock

**Music Description:** In this example, the G–D–C–G chord progression from previous rhythm exercises is arranged in straight sixteenth notes throughout.

**Tip:** Remember to count: “one-ee-and-uh, two-ee-and-uh, three-ee-and-uh, four-ee-and-uh...”

# WEEK 6

CD1 • TRACK 6

MON

0:00

**Exercise: #36**

CD2 • Tracks: 1-8

Technique: Alternate Picking

Genre: Rock/Blues

**Music Description:** This exercise features the A minor pentatonic scale arranged in a sequence of "ascending threes" (A-C-D, C-D-E, D-E-G, etc.).

**Tip:** Because of the triplet rhythm, the picking direction reverses itself on every beat so pay special attention to the picking prompt between the notation and tab staves.

♩ = 40-120

Am or A7

TUE

0:11

**Exercise: #37**

CD2 • Tracks: 1-8

Technique: String Skipping

Genre: Rock/Blues

**Music Description:** Octave jumps (A to A, C to C, D to D, etc.) within the A minor pentatonic form the basis of this exercise.

**Tip:** Two fret hand octave shapes (index/ring and index/pinky) are utilized throughout so become familiar with both right away.

♩ = 40-120

Am or A7

WED

0:23

**Exercise: #38**

CD2 • Tracks: 1-8

Technique: String Bending

Genre: Rock/Blues

**Music Description:** This bending workout features two half-step pre-bends (strings 2 and 3, first measure), a half-step bend and release (string 1), and a half-step bend (string 3, second measure).

**Tip:** The picking prompt between the notation and tab staves is only a suggested pattern. Because the picking in this lick is tricky, you should experiment to find what pattern works best for you.

♩ = 40-120

A7

THU

**Music Description:** Like last Thursday's exercise (#32), G, D, and C barre chords are used once again. Here, a 6-5-2-3 string pattern is used to arpeggiate the six-string voicings.

**Tip:** Try using economy picking for this figure, whereby a single downstroke is used to play the bottom two notes and a single upstroke is used to play the top two notes.

♩ = 40-120

# WEEK 7

CD1 • TRACK 7

MON

**Exercise: #43**

CD2 • Tracks: 1–8

**Technique:** Alternate Picking**Genre:** Rock/Blues

**Music Description:** This exercise takes last Monday's "ascending threes" sequence (#36) a step further, arranging the A minor pentatonic scale into "ascending fours" (A–C–D–E, C–D–E–G, D–E–G–A, etc.).

**Tip:** Unlike last week's triplet rhythm, this exercise is written in straight sixteenth notes so the picking direction is consistently downstrokes or upstrokes on each downbeat. Once you're comfortable starting the figure with a downstroke, try starting with an upstroke.

♩ = 40–120

Am or A7

0:00

TUE

**Exercise: #44**

CD2 • Tracks: 17–24

**Technique:** String Skipping**Genre:** Blues

**Music Description:** The whole-step bend on the third string, followed by a string skip to the root note (A) on the first string, is a pentatonic move that was made popular by blues string-scorcher Stevie Ray Vaughan.

**Tip:** To facilitate a clean shift from eighth position (measure 1) to fifth position (measure 2), follow the suggested fingerings that are located below the tab staff.

♩ = 48–160 (♩ =  $\sqrt[3]{\text{triple}}$ )

A7

0:11

WED

**Exercise: #45**

CD2 • Tracks: 17–24

**Technique:** String Bending**Genre:** Blues

**Music Description:** Quarter-step bends, also called "smears," are introduced in this exercise. Played on strings 1–3, the pitches are located halfway between the original fretted note and a half-step bend.

**Tip:** When performing a quarter-step bend, you're really not targeting a specific pitch; instead, aim for a pitch that sounds slightly out of tune.

♩ = 48–160 (♩ =  $\sqrt[3]{\text{triple}}$ )

A7

0:19

THU

**Music Description:** Barre chords are the basis of this arpeggio workout, but here their roots are located on the fifth string rather than the sixth. The omnipresent G–D–C–G progression is utilized once again.

**Tip:** Because all of the chords are major, you're able to maintain the same voicing (index finger on string 5; ring-finger barre on strings 2–4) throughout.

♩ = 40-120

### Exercise: #76

**CD2 • Tracks: 1–8**

### Technique: Legato

**Genre:** Rock/Blues

**Music Description:** Based in the E blues scale, this open-position legato line features alternating three-note and two-note pull-offs as it descends the strings.

**Tip:** Use a combination of right- and left-hand muting to prevent unwanted string noise, especially from previously played open strings.

♩ = 40-120  
Em or E7

pick: ☐

TAB

### Exercise: #77

**CD2 • Tracks: 1–8**

### Technique: Rhythm

**Genre:** Rock

**Music Description:** Similar to last Sunday's rhythm exercise, Am, C, G, and Em arpeggios are arranged in an ascending/descending pattern; however, in lieu of hammer-ons, pull-offs are added to three of the four arpeggios.

**Tip:** The most efficient way to voice the G major arpeggio is to move your fret hand's ring finger from fret 3 of the fifth string (its location for the C chord/arpeggio) to fret 3 of the sixth string. That way, you can use your pinky finger, similar to the Am and C arpeggios, to perform the pull-off on string 2.

### Technique: String Skipping

**Genre:** Metal

**Music Description:** This figure is the descending version of last Tuesday's A major string-skipping exercise (#114).

**Tip:** If an index-ring-pinky finger combination feels uncomfortable when playing the notes on strings 5 and 6, substitute your middle finger for your ring finger.

W  
E  
D

## Exercise: #122

**CD2 • Tracks: 1–8**

### Technique: String Bending

**Genre:** Rock

**Music Description:** This riff-based exercise employs quarter-, half-, and whole-step bends on the bass strings, a popular technique in rock and country guitar.

**Tip:** Whole-step bends on the low strings can be difficult to execute. For the one at the end of this figure, pull the sixth string downward until its pitch matches the open A string.

# GUITAR AEROBICS

# WEEK 19

CD1 • TRACK 19

MON

### Exercise: #127

**CD2 • Tracks: 33–40**

### Technique: Alternate Picking

**Genre:** Country

**Music Description:** This country lick is rooted in the C major pentatonic scale (with the addition of one chromatic passing tone, E<sup>b</sup>) and features a mixture of fretted and open-string notes.

**Tip:** Use your index, middle, ring, and pinky fingers to play the notes on the first, second, third, and fourth frets, respectively.

### Exercise: #128

**CD2 • Tracks: 9–16**

### Technique: String Skipping

**Genre:** Metal

**Music Description:** This A major string-skipping exercise follows the same concept as Exercise 114, except that, here, the three-note groupings descend on each string before skipping to the new target string.

**Tip:** Spend extra time working on the position shift that occurs when moving from string 3 to string 2. Although it's only a one-fret shift, it's tricky when playing this type of pattern.

♩ = 40-112

A

**W  
E  
D**

## Exercise: #129

**CD2 • Tracks: 33–40**

### Technique: String Bending

**Genre:** Country

**Music Description:** Like the exercise from last Wednesday (#122), this figure focuses on bass-string bends. This time, half-step bends are mixed with open strings for a snappy country lick in G.

**Tip:** Push up, toward the ceiling, when performing these bends, to avoid interference with the adjacent open strings.

**♩ = 60-184**

**G**

**Music Description:** A root–3rd–5th–3rd arpeggio pattern is played twice per measure, outlining Am, C, G, and Em chords, respectively, on the guitar's top two strings.

**Tip:** Not only is this a great arpeggio workout, it happens to be a great alternate-picking exercise, too.

♩ = 40-120

# SUN

### Exercise: #133

**CD2 • Tracks: 17–24**

### Technique: Rhythm

**Genre:** Blues

**Music Description:** Guitar legend Buddy Guy popularized this single-note boogie riff while playing the Chicago blues circuit in the 1960s. The line consists of each chord's root (beats 1 and 2), as well as its  $\flat 7$ th (beat 3) and 5th (beat 4). For example, the line for the A7 chord, in measure 1, contains the notes A (root), A (root octave), G ( $\flat 7$ th), and E (5th).

**Tip:** All of the notes in this figure should be performed in a staccato manner (i.e., short and crisp).

## WEEK 20

CD1 • TRACK 20

MON

TUE

WED

**Exercise: #134**

CD2 • Tracks: 33–40

Technique: Alternate Picking

Genre: Country

**Music Description:** Like last Monday's lick (#127), this country line also features the C major pentatonic scale (with an E<sup>b</sup> passing tone); however, this lick predominantly descends the scale, resolving to the root (C) in the second measure.

**Tip:** Practice each measure separately until you can play through them with no mistakes. Then, link the measures together and play the entire phrase repeatedly.

♩ = 60-184

C

**Exercise: #135**

CD2 • Tracks: 9–16

Technique: String Skipping

Genre: Metal

**Music Description:** Influenced by last Tuesday's exercise (#128), here the A major scale is arranged into three-note groupings that ascend each string while simultaneously descending the neck vertically via a string-skipping pattern.

**Tip:** Because of the position shifts that occur between string pairs 1–2 and 3–4, first practice this exercise a half measure at a time to isolate the position shifts.

♩ = 40-112

A

**Exercise: #136**

CD2 • Tracks: 33–40

Technique: String Bending

Genre: Country

**Music Description:** This bass-string bending riff was borrowed from Brad Paisley's bag of tricks. The figure's two chords (B and E) are connected with quick bends of the fifth and sixth strings, at the end of measure 1.

**Tip:** After playing the B chord, move your index and ring fingers to the sixth and fifth strings, respectively, like you're going to play an F# power chord. This will put you in perfect position to attack the bends.

♩ = 60-184

B

E

THU

**Music Description:** Note for note, this arpeggio exercise is identical to the one from last Thursday (#130); however, here the fingerings have been shifted to string set 2–3.

**Tip:** The C and G arpeggios use the same finger pattern so simply slide your fret hand down the neck, from seventh to twelfth position. The minor arpeggios (Am and Em) also share the same fingering.

♩ = 40-120

WEEK 21

CD1 • TRACK 21

MON  
0:00

**Exercise: #141**      **CD2 • Tracks: 33–40**      **Technique: Alternate Picking**      **Genre: Country**  
**Music Description:** The G major pentatonic scale (with a B<sup>b</sup> passing tone) informs this hot country lick, which is similar to the ascending open-position lick from Week 19 (#127).  
**Tip:** Whenever possible, let notes ring together to give the phrase a touch of country “twang”.

♩ = 60-184  
G

TUE  
0:07

**Exercise: #142**      **CD2 • Tracks: 9–16**      **Technique: String Skipping**      **Genre: Metal**  
**Music Description:** Similar to the A major patterns of the previous few Tuesdays, the A natural minor scale is arranged into a three-notes-per-string string-skipping exercise. Here, however, the groupings jump a whole octave (A to A, D to D, etc.) when moving from one string to the next.  
**Tip:** These string skips cover more of the neck (two- and three-fret jumps) than the A major scale patterns, so practice each skip separately before playing the entire exercise.

♩ = 40-112  
Am

WED  
0:19

**Exercise: #143**      **CD2 • Tracks: 33–40**      **Technique: String Bending**      **Genre: Country**  
**Music Description:** You’ll need lots of finger strength—and patience—to pull off this “pedal-steel” lick in C major, a favorite of country pickers.  
**Tip:** Use hybrid picking (a combination of your pick and fingers) to play this lick, plucking the non-bent notes on the second string with your middle finger.

♩ = 60-184  
C

**Music Description:** In this exercise, the familiar Am–C–G–Em two-string arpeggio pattern from the previous two Thursdays (#130 and #137) is played in a lower octave, on strings 3 and 4.

**Tip:** You can use the same three fingers (index, middle, and pinky) for the first three arpeggios simply by adjusting your fingering on string 3 by one fret.

♩ = 40-120

### Technique: String Skipping

**Genre:** Metal

**Music Description:** In this string-skipping exercise, the C major scale (or A minor, its relative minor scale) is arranged in an ascending, three-notes-per-string pattern on both the first and third strings, completely skipping over string 2.

**Tip:** Experiment with various ways to finger this exercise. The fingerings notated are merely suggestions.

**♩ = 40-112**

Cor Am

[illegible]W  
E  
D

## Exercise: #171

**CD2 • Tracks: 1–8**

### Technique: String Bending

**Genre:** Rock/Blues

**Music Description:** Rooted in the 12th-position E minor pentatonic scale, this lick is a repeating three-note sequence featuring whole-step bends on string 3.

**Tip:** Use a down-down-up picking pattern to perform each three-note pattern.

**♩ = 40-120**

E7

Musical score for "The Sound of Silence" by Simon & Garfunkel. The score is in E major (three sharps) and 4/4 time. It features a guitar part with a repeating eighth-note pattern and a bass line with a similar pattern. The guitar part includes a "pick" instruction and a "V" symbol. The bass line includes a "T" symbol. The score is divided into two systems, each with a repeat sign at the end.

**Music Description:** For this exercise, the Am, C, G, and Em arpeggio patterns from Exercise 165 have been shifted from strings 1 and 2 to strings 2 and 3, resulting in different fingerings.

**Tip:** As an alternative to alternate picking, use a pull-off to articulate the first two notes of each pattern; pick the two remaining notes.

♩ = 40-120

### Exercise: #174

**CD2 • Tracks: 1–8**

**Technique:** Legato

**Genre:** Rock

**Music Description:** The four notes in last week's tapping exercise (E, F#, G, and A) make an encore performance here: however, the note sequence has been reversed, thus hammer-ons are employed after each finger tap.

**Tip:** If you get bored with hearing the same four notes played over and over, move your tapping finger up and down the neck for aural variety.

♩ = 40-120  
Am or A7

The image shows a musical score for a guitar exercise. The top staff is in treble clef with a key signature of one sharp (F#) and a 4/4 time signature. The tempo is marked as ♩ = 40-120. The chord is indicated as Am or A7. The melody consists of eighth notes with ties, starting on F#4 and moving up stepwise to A4, then down stepwise to F#3, and finally down to E3. The bottom staff is a tablature line with fret numbers 10, 5, 7, and 8, also with ties. The exercise is repeated for 8 measures.

### Exercise: #175

**CD2 • Tracks: 25–32**

### Technique: Rhythm

**Genre:** Jazz

**Music Description:** Modeled after last week's "four to the bar" example (#168), this swing accompaniment exercise introduces a quick ii7-V7 (Am7-D9) turnaround pattern (bar 4) to the G major progression.

**Tip:** When playing the G7 chord, flatten your index finger slightly to mute the fifth string. Same goes for your middle finger when playing the Am7 chord.

### Exercise: #213

**CD2 • Tracks: 1–8**

### Technique: String Bending

**Genre:** Blues

**Music Description:** This Stevie Ray Vaughan–inspired lick builds on the bending workouts of the previous two weeks (#199 and #206), introducing a quarter-step double-stop bend in measure 1.

**Tip:** To play the first-string bends that succeed notes from the same fret of the adjacent, second string, use your ring finger for the former and your middle finger for the latter.

♩ = 40-120  
A7

The musical score for 'A7' is written in E major (two sharps) and 4/4 time. The tempo is marked as ♩ = 40-120. The guitar melody consists of eighth and quarter notes, often grouped in triplets. It includes various techniques such as bends (indicated by a wavy line), vibrato (indicated by a wavy line over a note), and a 'pick' instruction. The tablature below the staff shows the fret numbers for each note, with some notes marked with a '1' for a single fret bend. The piece ends with a double bar line.

pick: V

TAB

**Music Description:** This three-octave G major arpeggio climbs the neck horizontally—starting in second position, moving to fourth position, and ending in seventh position—before reversing direction and descending the pattern. **Tip:** There are three distinct position shifts in this example, as indicated in the fingerings that are notated.

0:40

**Music Description:** An Amaj7 arpeggio, arranged in a three-octave, two-notes-per-string pattern, is the foundation for this figure.

**Tip:** Don't let the two-notes-per-string pattern dictate the rhythm; this exercise should be played in strict triplets throughout.

♩ = 56-144  
Amaj7

**Exercise: #229** CD2 • Tracks: 9-16

**Technique:** Sweep Picking

**Genre:** Metal

**Music Description:** Ascending triad arpeggios, diatonic to the key of D major, climb the neck along strings 3-5 and are individually articulated with a single downward sweep.

**Tip:** The wound D, A, and low-E strings (and perhaps the G string, if you're brave enough!) present a greater challenge than unwound strings with respect to sweep picking. Consequently, you may need to spend considerably more time practicing this exercise and the exercises to follow.

♩ = 40-112

**Exercise: #230** CD2 • Tracks: 1-8

**Technique:** Legato

**Genre:** Rock

**Music Description:** This exercise is the descending version of last Saturday's legato figure (#223). The E natural minor scale is once again the melodic source, while octave shapes and legato slides provide the techniques.

**Tip:** Because this figure shares the same notes as the D Mixolydian mode (D-E-F#-G-A-B-C), you can try playing the open D string along with the octave shapes, muting the low E string, for a D dominant-seventh tonality.

♩ = 40-120

**Exercise: #231** CD2 • Tracks: 41-48

**Technique:** Rhythm

**Genre:** Funk

**Music Description:** This funk figure, which retains the half-step chordal slide (E<sup>b</sup>9 to E9) and sixteenth-note pulse from Exercise 224, adds a syncopated rhythm to the chord stabs and string mutes, and introduces an E13 chord, played staccato, on beat 4 of the second measure.

**Tip:** To voice the E13 chord, simply maintain the preceding E9 voicing and add your pinky to fret 9 of the first string.

♩ = 40-112

GUITAR  
AEROBICS

## WEEK 34

CD1 • TRACK 34

MON

## Exercise: #232

CD2 • Tracks: 9–16

Technique: Alternate Picking

Genre: Metal

**Music Description:** The arpeggios from last week (#225) have been extended to include the third string. These ascending patterns start on the chords fifth degree (e.g., A for the D chord, E for the A chord) and end on the fifth degree, one octave higher.

**Tip:** Remember, this is an alternate-picking exercise, so avoid the temptation to use a downwards sweep for the first three notes of each beat.

♩ = 40-112

### Exercise: #241

**CD2 • Tracks: 33–40**

### Technique: String Bending

**Genre:** Country

**Music Description:** Half-step bends and pre-bends are incorporated into a descending D Mixolydian (D-E-F#-G-A-B-C) phrase.

**Tip:** In measure 3, bend the fourth string upwards (towards the ceiling) with your index finger.

[illegible]

THU

0:31

**Music Description:** Here, the three-octave, two-notes-per-string arpeggio concepts from Exercises 228 (Amaj7) and 235 (A7) have been retained; this arpeggio, however, outlines an Am7 chord.

**Tip:** Because the same index-pinky finger pattern (three-fret stretch) is used on each string, you can focus more of your attention on the position shifts.

♩ = 56-144

Am7

FRI

0:40

**Exercise: #243**

CD2 • Tracks: 9-16

Technique: Sweep Picking

Genre: Metal

**Music Description:** This example, which builds upon Exercises 229 and 236 adds the 7th to each arpeggio. This results in ascending D major, minor, dominant, and half-diminished seventh-chord arpeggios that climb the neck along strings 3-5.

**Tip:** To facilitate the quick jumps your fret hand's pinky finger must make, lift your pinky from string 5 and begin moving it to its new location, on string 3 while articulating the two intervening notes.

♩ = 40-112

SAT

0:52

**Exercise: #244**

CD2 • Tracks: 1-8

Technique: Legato

Genre: Rock

**Music Description:** The A Dorian mode (A-B-C-D-E-F#-G) provides the notes for this ascending legato line, which features a steady sixteenth-note rhythm, an open-A string drone, and octave shapes played on strings 2 and 4.

**Tip:** Notice that the fingering for these octave shapes is different than the fingering from Weeks 32-34. Here, because of the three-fret stretch, your pinky finger voices the higher notes (string 2), rather than your ring finger.

♩ = 40-120

Am

SUN

0:52

**Exercise: #245**

CD2 • Tracks: 1-8

Technique: Rhythm

Genre: Rock

**Music Description:** The Who's Pete Townshend popularized this type of rock rhythm playing, which intersperses an open-D string pedal tone with syncopated triad chord stabs (D, A, and G).

**Tip:** The best way to perform this example is to use downstrokes throughout. Also, be sure to let the open D string ring out at all times, taking care not to mute the string with your pick-hand fingers while voicing the triads.

♩ = 40-120

### Exercise: #269

**CD2 • Tracks: 33–40**

### Technique: String Bending

**Genre:** Country

**Music Description:** Nonadjacent double-string bends are married to sixth intervals to navigate descending D, C, and G chords.

**Tip:** It's difficult to maintain intonation when bending both strings a half step, so spend extra time on the bends before attempting to play the entire phrase.

♩ = 60-184

The musical score for "The Wind" by The Beatles is presented in three measures. The key signature is one sharp (F#), and the time signature is 4/4. The guitar part is in standard notation, and the bass part is in tablature. The guitar part includes a "pick" instruction and a "1/2" instruction. The bass part includes a "1/2" instruction. The guitar and bass parts are shown in standard notation and tablature.

**Measure 1: D**

Guitar: D4 (3), D#4 (2), E4 (3), F#4 (1), G4 (2), A4 (3), B4 (1), C5 (2).  
 Bass: 13, 13 (13), 12, 10.

**Measure 2: C**

Guitar: C4 (3), C#4 (2), D4 (3), E4 (1), F#4 (2), G4 (3), A4 (1), B4 (2).  
 Bass: 11, 11 (11), 10, 8.

**Measure 3: G**

Guitar: G4 (3), G#4 (2), A4 (3), B4 (1), C5 (2), D5 (3), E5 (1), F#5 (2).  
 Bass: 11, 11 (11), 10, 9.

0-22

**Music Description:** In this exercise, which is similar to last Thursday's three-octave, two-notes-per-string pattern (#263), the arpeggio is dominant in quality—specifically, A dominant seventh (A7).

**Tip:** If you know the Amaj7 pattern from last Thursday, simply lower the notes on strings 6, 4, and 2 one fret to make it an A7 arpeggio.

**♩ = 56-144**

A7

The image shows a musical score for a guitar piece titled "A7". The key signature is E major (two sharps: F# and C#), and the time signature is 4/4. The score consists of two staves: a standard musical staff and a guitar tablature staff.

**Musical Staff:** The melody is written in E major. It begins with a treble clef and a key signature of two sharps. The first measure is a whole note chord, likely A7. The melody is composed of eighth and quarter notes, with many triplets indicated by a "3" over the notes. The piece ends with a double bar line and repeat dots.

**Guitar Tablature Staff:** The tablature is written on a six-line staff. It includes fret numbers (e.g., 3, 5, 4, 7, 5, 7, 6, 9, 8, 10, 9, 12, 12, 9, 10, 8, 9, 6, 7, 5, 7, 4, 5, 3) and a "pick:" instruction. The tablature corresponds to the notes in the musical staff above it.

**Technique:** Rhythm

**Genre:** Metal

**Music Description:** This F# minor figure, inspired by George Lynch's instrumental tour de force, "Mr. Scary," has all the hallmarks of a great hard rock/metal rhythm: hammer-ons, pull-offs, palm mutes, pedal tones, and a single-note turnaround pattern (second half of measure 2).

**Tip:** Although the picking prompt indicates that downstrokes should be used for the hammer-on/pull-off sequence on beats 3 and 4 of the first measure, feel free to experiment with any combination of downstrokes and upstrokes. However, downstrokes will pack more punch!

**♩ = 40-112**

CD1 • TRACK 40

MON

### Exercise: #274

**CD2 • Tracks:** 9–16

### Technique: Alternate Picking

**Genre:** Metal

**Music Description:** This A natural minor scale (A–B–C–D–E–F–G) sequence is built for speed! It's also a good primer on *crosspicking*, or “outside” picking, which involves using alternating downstrokes and upstrokes to pick the “outside” of two adjacent strings.

**Tip:** While it's perfectly acceptable to commence this pattern with a downstroke, starting it with an upstroke engages the advantageous crosspicking technique.

**J = 40-112**

### Exercise: #275

**CD2 • Tracks: 9–16**

### Technique: String Skipping

**Genre:** Metal

**Music Description:** This exercise is similar to the string-skipping figure from Week 38 (#261), only here the three-note groupings ascend (rather than descend) strings 4 and 6 while simultaneously working their way down the neck.

**Tip:** Experiment with using either your ring or index finger for the wide stretches (five frets) of beat 2 of the first measure and beats 1, 3, and 4 of the second measure, choosing whichever finger feels most natural and comfortable.

♩ = 40-112

### Exercise: #276

CD2 • Tracks: 33–40

### Technique: String Bending

**Genre:** Country

**Music Description:** E, D, and A chords are outlined with two- (E and D) and three-note (A) oblique bends.

**Tip:** For the three-note oblique bend, experiment with the two fingerings offered in the notation staff, using whichever is most comfortable.

**♩ = 60-184**

The first system of the musical score for "The Sound of Silence" by Simon & Garfunkel. It features a treble clef, a key signature of two sharps (F# and C#), and a 4/4 time signature. The melody is written on a single staff. The first measure is a whole note chord labeled 'E' with a 'pick:' instruction and a 'm' (mute) symbol. The second measure is a whole note chord labeled 'D' with a 'm' symbol. The third measure is a whole note chord labeled 'A' with a 'm' symbol. The tablature below the staff shows the fret numbers for each measure: 7/8, (8), 1/2; 5/6, (6), 1/2; 5/5, (5), 1/2.

0-23

THU

0:32

**Music Description:** Once again, the three-octave, two-notes-per-string arpeggio pattern that has been utilized the last several weeks is put into play. Here, the pattern outlines an Am7 chord.

**Tip:** Don't forget to repeat the pattern's top note, E (twelfth fret, string 1), before starting the descent. Likewise, the lowest note, G (third fret, string 6), is restated on the pattern's repetition.

♩ = 56-144  
Am7

Musical notation for Exercise #277, Am7 arpeggio pattern. The notation includes a treble clef, a key signature of one flat (Bb), and a 4/4 time signature. The melody consists of a series of eighth notes, with some beamed together in groups of three. The bass line consists of a series of eighth notes, also beamed together in groups of three. The notation includes a 'pick' instruction and a 'V' symbol indicating a vibrato or bend. The fretboard diagram shows the positions of the notes on the strings.

FRI

0:41

**Exercise: #278** CD2 • Tracks: 9-16 **Technique:** Sweep Picking **Genre:** Metal

**Music Description:** This figure employs the same fingerings found in the sweep-picking exercises from Weeks 33-34; however, here the triad arpeggios are played on strings 4-6, thus changing the key center from D major to A major.

**Tip:** Use the fleshy underside of your fret hand's index finger to mute strings 1-3, preventing unwanted string noise.

♩ = 40-112

Musical notation for Exercise #278, sweep picking exercise. The notation includes a treble clef, a key signature of two sharps (F# and C#), and a 4/4 time signature. The melody consists of a series of eighth notes, with some beamed together in groups of three. The bass line consists of a series of eighth notes, also beamed together in groups of three. The notation includes a 'pick' instruction and a 'V' symbol indicating a vibrato or bend. The fretboard diagram shows the positions of the notes on the strings.

SAT

0:53

**Exercise: #279** CD2 • Tracks: 1-8 **Technique:** Legato **Genre:** Rock

**Music Description:** The D Mixolydian mode, octave shapes on strings 1 and 3, sixteenth-note rhythms, and ascending/descending legato slides, all of which are borrowed from Exercises 265 and 272, are combined here to produce a droning riff reminiscent of some of Richie Sambora's work in Bon Jovi.

**Tip:** Planting your fret-hand thumb on the back of the neck—rather than draping it over the top of the fretboard—will help keep proper spacing between your index and pinky fingers while you move the octave shapes up and down the neck.

♩ = 40-120

D7

8va

Musical notation for Exercise #279, legato exercise. The notation includes a treble clef, a key signature of one flat (Bb), and a 4/4 time signature. The melody consists of a series of eighth notes, with some beamed together in groups of three. The bass line consists of a series of eighth notes, also beamed together in groups of three. The notation includes a 'pick' instruction and a 'V' symbol indicating a vibrato or bend. The fretboard diagram shows the positions of the notes on the strings.

SUN

**Exercise: #280** CD2 • Tracks: 9-16 **Technique:** Rhythm **Genre:** Metal

**Music Description:** Similar to a riff found in Megadeth's "Peace Sells," this metal passage features the E natural minor scale (E-F#-G-A-B-C-D) arranged in multiple three-note pull-off/hammer-on moves that descend strings 5 and 6, while a low E-string pedal firmly establishes the riff's E minor tonality.

**Tip:** In metal, it's common for guitarists to use downstrokes exclusively whenever possible. This practice imparts a firm attack to riffs, something alternate picking doesn't provide—but this exercise does!

♩ = 40-112

Em

Musical notation for Exercise #280, rhythm exercise. The notation includes a treble clef, a key signature of one flat (Bb), and a 4/4 time signature. The melody consists of a series of eighth notes, with some beamed together in groups of three. The bass line consists of a series of eighth notes, also beamed together in groups of three. The notation includes a 'pick' instruction and a 'P.M.' symbol indicating a palm mute. The fretboard diagram shows the positions of the notes on the strings.

## Exercise: #290

**CD2 • Tracks: 33–40**

### Technique: String Bending

**Genre:** Country

**Music Description:** Played over an A chord, this example combines oblique bends with pick-hand muting to produce a percussive effect commonly known as “chicken pickin’.”

**Tip:** Use the middle finger of your pick hand to mute the third string, which is simultaneously attacked with a downstroke of the pick.

**♩ = 60-184**

A

[illegible]

0:25

H

0:35

**Music Description:** For this next example, an A°7 (A diminished seventh) arpeggio is arranged in a three-octave, two-notes-per-string pattern and played in a strict triplet rhythm throughout.

**Tip:** The two-notes-per-string index-pinky pattern moves up one fret on each successive string except for string 2, where the pattern moves up two frets.

♩ = 56-144  
A°7

F

0:43

### Exercise: #292

CD2 • Tracks: 9-16

**Technique:** Sweep Picking

**Genre:** Metal

**Music Description:** This sweep-picking example borrows the A major triad arpeggios from Exercise 278 and adds a diatonic 7th to each, converting them to major, minor, dominant, or half-diminished seventh chords.

**Tip:** If jumping your fret hand's pinky from string 6 to string 4 for the major-seventh arpeggios gives you problems, try substituting your ring finger on the low E string.

♩ = 40-112

S

0:55

### Exercise: #293

CD2 • Tracks: 1-8

**Technique:** Legato

**Genre:** Rock

**Music Description:** In this legato exercise, a tap/pull/hammer sequence is used to ascend the root-position A minor pentatonic scale.

**Tip:** While you climb the scale, use the "heel" of your pick hand, which should be resting in the vicinity of the seventeenth fret, to mute strings after they've been played, thus preventing unwanted string noise.

♩ = 40-120  
Am or A7

## WEEK 43

CD1 • TRACK 43

MON

## Exercise: #295

CD2 • Tracks: 9–16

Technique: Alternate Picking

Genre: Metal

**Music Description:** A variation of the exercises from the previous two Monday's (#281 and #288), this A natural minor scale sequence employs fret-hand slides to facilitate position shifts.

**Tip:** Unlike the previous two Mondays, straight sixteenth notes are utilized here, so work diligently on not letting the three-against-four feel (three-note groupings against four notes per beat) trip you up.

♩ = 40-112

Am  
8va

0:00

TUE

## Exercise: #296

CD2 • Tracks: 9–16

Technique: String Skipping

Genre: Metal

**Music Description:** This exercise builds on the foundation laid by the figures from the previous two Tuesdays (#289 and #282) by adding an additional note on top (major and minor 3rds, depending on the chord quality) and including both ascending and descending forms in each measure.

**Tip:** For the Am and Em arpeggios, try to use your ring finger (rather than your pinky) to play the highest notes. This will eliminate the need to jump your pinky between strings 2 and 4.

♩ = 40-112

Am

C

G

Em

0:11

WED

## Exercise: #297

CD2 • Tracks: 33–40

Technique: String Bending

Genre: Country

**Music Description:** In this example, adjacent- and nonadjacent-string oblique bends and chordal bending are combined for a country workout in the key of A.

**Tip:** Use hybrid picking—alternating between your pick and middle finger—to perform this lick.

♩ = 60-184

A

0:29

**Music Description:** A sixth-string-rooted A major barre-chord shape furnishes the framework for this six-string arpeggio exercise.

**Tip:** After you've performed the sixth-string hammer-on, use one continuous down-sweep to articulate the remaining strings. Follow these maneuvers with an upstroke for the pull-off and an uninterrupted up-sweep for strings 2–6.

**♩ = 40-120**

0:38

**FRI**

### Exercise: #299

CD2 • Tracks: 9–16

### Technique: Sweep Picking

**Genre:** Metal

**Music Description:** Like last week's sweep-picking exercise (#292), this figure utilizes seventh-chord arpeggios in the key of A major. This time, however, the arpeggios descend strings 4–6 while the pattern climbs the neck.

**Tip:** To learn this exercise quickly, memorize the sequence of the four different finger patterns (major, minor, dominant, and half-diminished), as well as the fret at which each pattern begins on string 4. That way, it's unnecessary (at least initially) to memorize each individual note name and/or fret location.

**♩ = 40-112**

0:49

# SAT

### Exercise: #300

**CD2 • Tracks: 1–8**

**Technique:** Legato

**Genre:** Rock

**Music Description:** This tapping lick, rooted firmly in A minor pentatonic, is similar to the one found in Exercise 286; this time, however, a “hammer from nowhere” is used to change strings, giving the figure a distinct sound.

**Tip:** A “hammer from nowhere” is a hammer-on that’s initiated by the fret hand, and most frequently applied when moving from string to string. Be sure to put enough force behind these hammer-ons so that they ring as clearly as the other three notes on the string.

**♩ = 40-120**

Amor A7

TAB

0:59S  
U

## WEEK 44

CD1 • TRACK 44

MON

0:00

**Exercise: #302**

CD2 • Tracks: 9–16

**Technique:** Alternate Picking**Genre:** Metal

**Music Description:** The same concept as last Monday (#295) is in play here, only the A natural minor scale sequence commences on string 1, descends to string 2, and then climbs horizontally up the neck.

**Tip:** Don't let the scale sequence dictate your picking pattern; instead, maintain a steady down-up-down-up pattern on each beat throughout.

♩ = 40-112

Am  
8va

TUE

0:11

**Exercise: #303**

CD2 • Tracks: 9–16

**Technique:** String Skipping**Genre:** Metal

**Music Description:** This string-skipping exercise maintains the same Am–C–G–Em arpeggio sequence from last Tuesday (#296), only the notes in each measure follow a descending-ascending (rather than ascending-descending) pattern.

**Tip:** To seamlessly transition from the G arpeggio to the Em arpeggio—and the subsequent notes that occur at the eighth fret of string 2—quickly shift from your index finger to your ring finger.

♩ = 40-112

Am

C

G

Em

WED

0:20

**Exercise: #304**

CD2 • Tracks: 33–40

**Technique:** String Bending**Genre:** Country

**Music Description:** Three-string oblique bends (one bent note and two fixed notes) are utilized to outline the E–D–A (V–IV–I) progression.

**Tip:** Use your ring finger, middle finger, and pick to play the notes on strings 1, 2, and 3, respectively.

♩ = 60-184

E

D

A

THU

**Music Description:** A fifth-string-rooted barre-chord shape is the basis for this "swept" A major arpeggio.  
**Tip:** The ring-finger bar on strings 2–4 makes this voicing easier to sweep than its six-string predecessor.

♩ = 40-120  
A

0:38

FRI

**Exercise: #306** CD2 • Tracks: 9–16 **Technique:** Sweep Picking **Genre:** Metal

**Music Description:** Note for note, this figure is identical to the sweep-picking exercise from Week 42; however, this time a hammer-on connects the two notes found on string 4 of each four-note arpeggio.

**Tip:** Go slowly with this exercise. You will find your fret hand quickly becoming fatigued because of the extra pressure that must be applied to fret the heavier strings, as well as to perform the hammer-on.

♩ = 40-112

0:49

SAT

**Exercise: #307** CD2 • Tracks: 1–8 **Technique:** Legato **Genre:** Rock

**Music Description:** Akin to Eddie Van Halen's intro in "Hot for Teacher," this fifth-string tapping riff utilizes A and Dm arpeggios, played against an open-A string pedal tone, to outline an A–Dm chord change.

**Tip:** While tapping, you can choose one of two techniques: 1) keep the pick in place between your thumb and index finger and tap with your middle finger, or 2) tap with your index finger and cup the pick between you palm and remaining fingers.

♩ = 40-120

1:00

SUN

**Exercise: #308** CD2 • Tracks: 1–8 **Technique:** Rhythm **Genre:** Rock

**Music Description:** The chord-melody style rhythm used in last Sunday's exercise (#301) is retained for this example; however, in lieu of open-position chords, barre-chord partials outline the C–Am–G–F progression.

**Tip:** After playing the C-chord melody, plant your fret hand's ring finger on fret 7 of the fourth string for the Am chord, leaving it on that string throughout the remainder of the figure, adjusting your index, middle, and pinky fingers to accommodate the major-chord voicings (G and F) and embellishments that follow.

♩ = 40-120

## WEEK 45

CD1 • TRACK 45

MON

0:00

**Exercise: #309**

CD2 • Tracks: 9–16

**Technique:** Alternate Picking**Genre:** Metal

**Music Description:** This exercise is a straightforward ascension of a (nearly) three-octave A harmonic minor scale, capped with resolution to the root note, A, on string 2.

**Tip:** The four-note groupings that occur on strings 2 and 4 are tricky, so spend extra time getting those index-finger slides down pat before playing the entire exercise up to speed.

♩ = 40–112

Am

TUE

0:11

**Exercise: #310**

CD2 • Tracks: 25–32

**Technique:** String Skipping**Genre:** Jazz

**Music Description:** This snaky bebop line is played over a Gmaj7 chord and features multiple single-string skips as it descends the neck vertically.

**Tip:** Remember, this is a jazz line, so swing the eighth notes (i.e., play the first eighth note of each beat slightly longer than the second).

♩ = 56–144 (♩ =  $\frac{3}{4}$ )

Gmaj7

WED

0:20

**Exercise: #311**

CD2 • Tracks: 33–40

**Technique:** String Bending**Genre:** Country

**Music Description:** A new technique is introduced in this figure: bending behind the nut. Here, the E chord in the second measure is outlined with a combination of open first and second strings (E and B) and the open third string raised a half step (to G#) by bending behind the nut.

**Tip:** You'll need a guitar without a locking nut, such as a Fender Telecaster or Gibson Les Paul, to perform behind-the-nut bends.

♩ = 60–184

A

E

\*Bend behind nut.

H

**Music Description:** This sweep-picking pattern is similar to Exercise 298, only this time the arpeggio is minor (Am) in quality.

**Tip:** The trick to fretting the ring-finger bar is to "roll" the finger—from the tip to the first knuckle—over strings 5 and 4.

♩ = 40-120

Am

0:28

FRI

**Exercise: #313**

CD2 • Tracks: 9-16

**Technique:** Sweep Picking**Genre:** Metal

**Music Description:** In this example, pull-offs have been added to the sweep-picking exercise found in Week 43. As in that exercise, diatonic seventh chords in the key of A major descend strings 4-6 while simultaneously climbing the neck.

**Tip:** While performing the pull-offs, simultaneously jump your pick over string 4, moving it into place to perform the upward sweep of strings 5 and 6.

♩ = 40-112

### Technique: String Skipping

**Genre:** Jazz

**Music Description:** Like Exercise 310 from last Tuesday, this, too, is a snaky phrase that's played over a Gmaj7 chord. Here, strings 3, 4, and 5 are skipped during the line's descent.

**Tip:** For jazz authenticity, slide into the first note of the phrase.

**♩ = 56-144** (♩♩ =  $\overset{\frown}{\text{♩}}^3$ )

## Exercise: #318

**CD2 • Tracks: 33–40**

### Technique: String Bending

**Genre:** Country

**Music Description:** A whole-step behind-the-nut bend and pre-bend, performed on strings 3 and 4, respectively, are combined with fretted notes to outline an A7 chord.

**Tip:** To execute the behind-the-nut bends, push down on the string (towards the headstock) with considerable pressure, using more than one finger, if necessary. If you can't coax a whole-step pre-bend from behind the nut, perform it as a fretted pre-bend at the fifth fret of string 5.

**♩ = 60-184**

### Exercise: #325

**CD2 • Tracks: 33–40**

### Technique: String Bending

**Genre:** Country

**Music Description:** D7 and A7 chords are outlined with a combination of fretted notes and behind-the-nut whole-step bends and pre-bends.

**Tip:** Before commencing the phrase, place your pinky on the first fret of string 2 so that it's in place for the behind-the-nut bend in measure 1.

♩ = 60-184

D7

A7

[illegible]

\*Bend behind nut.

**Music Description:** In this wild arpeggio workout, familiar A major barre-chord shapes are connected by a third chord voicing, resulting in an ascending/descending sweep-picking frenzy that climbs the neck.

**Tip:** To pull off this lick cleanly, closely follow the picking directions that are indicated between the notation and tab staves.

**♩ = 40-120**

A

The musical score for the 'A' section of 'The Wind Cries Mary' is presented in two systems. The first system shows the melody in treble clef with a key signature of two sharps (F# and C#) and a 4/4 time signature. The melody is written on a single staff with various fingerings indicated by numbers 1-4. Below the staff, a 'pick' notation is shown with a series of squares and dashed lines, indicating a specific picking pattern. The second system shows the guitar tablature (TAB) for the same section, with fret numbers written on a six-line staff. The TAB includes various techniques such as bends and vibrato, indicated by slurs and wavy lines. The 'A' section is marked with a large 'A' at the beginning.

### Exercise: #327

**CD2 • Tracks: 9–16**

### Technique: Sweep Picking

**Genre:** Metal

**Music Description:** This sweep-picking exercise features multiple inversions of an E major triad (E–G♯–B–E, G♯–B–E–G♯, B–E–G♯–B, etc.) played in and around ninth position, in ascending and descending order.

**Tip:** Learn each inversion (four-note grouping) individually, and then string them together to form the entire phrase.

♩ = 40-112

F

[illegible]

### Exercise: #328

CD2 • Tracks: 9–16

### Technique: Legato

**Genre:** Metal

**Music Description:** This legato line borrows elements from Exercises 314 and 321, such as the A harmonic minor scale, but adds an exciting twist: an ascending and descending slide of the tapping finger on string 1.

**Tip:** When you pull off from string 1 with your tapping finger, after you've performed the slides, don't just lift the finger off the fretboard; instead, bend it slightly sharp (towards the ceiling or floor) while simultaneously releasing pressure on the string. This will maintain a consistent attack volume for all nine notes of the slur.

40-112

Am

The image shows a musical score for the song "The Wind" by The Beatles, arranged for guitar and bass. The score is in 4/4 time and the key signature is A minor (Am). The guitar part is written on a single staff with a treble clef. It includes a solo section marked with a wavy line. The bass part is written on a single staff with a bass clef. It includes a solo section marked with a wavy line. The score is for a guitar and bass duo.

### Exercise: #329

CD2 • Tracks: 25–32

**Technique:** Rhythm

**Genre:** Jazz

**Music Description:** In this rhythm workout, the jazz chord melody from last Sunday (#322) is transferred from strings 1-4 to strings 2-5, shifting the notes down one octave and necessitating new chord voicings.

**Tip:** Once you're comfortable playing this figure as written, turn it into an eighth-note example by restating the melody notes (string 2) after each chord. This will prep you for what's to come next Sunday (#336).

♩ = 56-144

8va

WED

0:23

**Exercise: #332**

CD2 • Tracks: 33–40

**Technique:** String Bending**Genre:** Country**Music Description:** An oblique pre-bend on strings 1 and 2, a double-stop (i.e., double-string) pre-bend with multiple intervals (half and whole steps) on strings 2 and 3, and a double-stop pre-bend with unison intervals on strings 3 and 4 are highlights of this A dominant-seventh lick.**Tip:** After the first-measure oblique bend, the rest of the phrase fits nicely in fifth position.

♩ = 60–184

A7

THU

**Music Description:** This example is the minor version of the arpeggio exercise from last week (#326). The chord's 3rd degree, C#, has been lowered a half step, or one fret, to C natural.

**Tip:** Keep a close eye on your pinky as your fret hand slides up string 1, using it as a guide to find the stops at frets 12 and 17.

♩ = 40-120  
Am

0:31

FRI

**Exercise: #334**

CD2 • Tracks: 25-32

Technique: Sweep Picking

Genre: Jazz

**Music Description:** This jagged jazz line features the G altered scale played over (what else?) an altered G chord (e.g., G7#5, G7b5), with eighth-note triplets supplying the rhythm for each sweep.

**Tip:** In measure 1, use a middle-finger bar on the fourth-fret notes on beat 2 and, on beat 4, an index-finger bar for those same notes.

♩ = 56-144 (♩ =  $\frac{3}{4}$ )  
G7alt

0:42

SAT

**Exercise: #335**

CD2 • Tracks: 9-16

Technique: Legato

Genre: Metal

**Music Description:** This figure expands on the ideas introduced in Exercises 314, 321, and 328. Specifically, the A harmonic minor scale is combined with hammer-ons, pull-offs, and ascending/descending tapping-finger slides to form a slippery lower-string legato line.

**Tip:** Position your pick hand close to the eleventh position so that it doesn't necessitate a large jump to execute the taps and slides. It's perfectly acceptable to pick the strings over the neck area, rather than over the pickups.

♩ = 40-112  
Am

0:52

SUN

**Exercise: #336**

CD2 • Tracks: 25-32

Technique: Rhythm

Genre: Jazz

**Music Description:** The Dm7-G7-Cmaj7 progression from Exercises 322 and 329 has been retained for this jazz rhythm workout; however, the melody is more sophisticated in this example, and the rhythm has been cranked up a notch, from quarter notes to eighth notes.

**Tip:** The proper pick-hand technique to use in this figure is to alternate between "pulling" the chords with a combination of your pick and fingers and using an upstroke with your ring or pinky finger for the additional melody notes on the "and" of each beat.

♩ = 56-144 (♩ =  $\frac{3}{4}$ )

## WEEK 50

CD1 • TRACK 50

MON

## Exercise: #344

CD2 • Tracks: 25–32

Technique: Alternate Picking

Genre: Jazz

**Music Description:** This line features the same Dm7–E♭7–A♭maj7–B7–Emaj7–G7–Cmaj7 progression as last Monday (#337); however, the sequence of ascending and descending arpeggios is reversed.

**Tip:** Swing the eighth notes and, for greatest efficiency, follow the fingering suggestions in the notation staff for greatest efficiency.

♩ = 56-144 (♩ = ♩♩)

0:00

TUE

## Exercise: #345

CD2 • Tracks: 9–16

Technique: String Skipping

Genre: Metal

**Music Description:** Rooted in the C major scale and arranged in a three-notes-per-string pattern, this shred line offers both two-string (ascending) and one-string (descending) skips.

**Tip:** Notice that strings 5–6 share the same finger pattern, as do strings 3–4 and strings 1–2.

♩ = 40-112

0:13

WED

## Exercise: #346

CD2 • Tracks: 33–40

Technique: String Bending

Genre: Country

**Music Description:** Triads from the D7 family of chords are arranged in descending fashion along strings 1–3 and voiced with various whole- and half-step bends.

**Tip:** There are multiple ways to finger this phrase; however, use the fingerings indicated below the tab staff as guidelines.

♩ = 60-184

0:25

H

**Music Description:** The same chord progression (Am–C–G–Em) found in last Thursday's exercise (#340) is utilized here, except these barre-chord "sweeps" have fifth-string roots.

**Tip:** Be careful in measure 2, where a *downward* legato slide links the G major and E minor arpeggios. Up to this point, all of the legato slides used to link arpeggios have moved upward.

♩ = 40-120  
Am

0:33

F

**Exercise: #348** CD2 • Tracks: 25-32

**Technique:** Sweep Picking

**Genre:** Jazz

**Music Description:** Ascending D minor seventh, G dominant seventh, and C major seventh arpeggios are "swept" over a two-bar ii–V–I (Dm7–G7–Cmaj7) progression, jazz music's most prominent chord changes.

**Tip:** Because the eighth notes must be "swung," it might be easier to play the last bar with alternate picking, rather than a downwards sweep. Experiment with both techniques.

♩ = 56-144 (♩ =  $\frac{3}{4}$ )

0:44

S

**Exercise: #349** CD2 • Tracks: 25-32

**Technique:** Legato

**Genre:** Jazz

**Music Description:** This D minor jazz line, rooted in D Dorian and played exclusively in tenth position, employs legato slides, hammer-ons, pull-offs and passing tones (C#, Eb, F#, and G#) during its descent of strings 1–4.

**Tip:** Don't overlook the two sixteenth notes played on the "and" of beat 3 of the first measure. To execute these properly, pick with an upstroke and then quickly pull off the string with your fret hand's ring, middle, and index fingers, respectively.

♩ = 56-144 (♩ =  $\frac{3}{4}$ )

0:53

S

**Exercise: #350** CD2 • Tracks: 25-32

**Technique:** Rhythm

**Genre:** Jazz

**Music Description:** Within the framework of a Gm7–C7–Fmaj7 progression, this exercise builds on last Sunday's exercise (#343) by adding syncopated chord stabs and a more elaborate walking bass line.

**Tip:** For a smoother line, play the bass notes that precede each chord with the same finger that you'll be using to play the bass note of the chord).

♩ = 56-144 (♩ =  $\frac{3}{4}$ )

**Music Description:** The two-notes-per-string/sweep-picking pattern from last Thursday (#354) is retained here for the G major arpeggio. The E minor arpeggio, however, starts on the chord's 5th degree, B, and utilizes a one-note/two-notes pattern for each string pair (6–5, 4–3, and 2–1).

**Tip:** For the E minor arpeggio, a single three-note finger pattern can be used for all three string pairs. This pattern will tempt you to play triplets, but sixteenth notes should be maintained throughout the phrase.

**♩ = 40-120**

### Technique: Sweep Picking

**Genre:** Metal

**Music Description:** The Am-C-G-Em progression from last Friday's sweep-picking exercise (#355) are back; this time, however, the arpeggios alternate between down- and up-sweeps on each chord change.

**Tip:** Shifting down the neck to perform an upward sweep (measure 2) is considerably more difficult than moving up the neck (measure 1), so spend extra time working on the transition from the G arpeggio to the Em arpeggio.

### Exercise: #363

**CD2 • Tracks: 25–32**

### Technique: Legato

**Genre:** Jazz

**Music Description:** A three-note motif, restated twice, supplies the melodic fabric for this C major legato line that features pull-offs on strings 1 and 2, a hammer-on on string 3, and a slide that resolves to the root, C, on string 4.

**Tip:** This figure is pinky free! The entire phrase can be played exclusively with your fret hand's index, middle and ring fingers. Follow the fingerings in the notation staff for best results.

**♩ = 56-144** (♩ =  $\overset{\frown}{\text{♩}}^3$ )

### Exercise: #364

**CD2 • Tracks:** 33–40

**Technique:** Rhythm

**Genre:** Country

**Music Description:** Famed guitar picker Chet Atkins made this type of “Travis picking” figure a staple of country music. Here, a fifth-string-rooted D major barre chord and a sixth-string-rooted A major barre chord provide the notes for the fingerpicking festivities.

**Tip:** For the A major chord, keep your index, middle, and ring fingers planted on the fretboard at all times, using your pinky to play the descending melody on string 2.

**♩ = 60-184**

### Exercise: #365

CD2 • Tracks: 9–16

### Technique: Alternate Picking

**Genre:** Metal

**Music Description:** This alternate/sweep-picking concept is borrowed from Racer X string-scorcher Paul Gilbert. Featuring the familiar Am–C–G–Em progression, a quick, alternate-picked four-note pedal-tone lick is played on string 1 before a descending sweep caps each chord.

**Tip:** Start with a downstroke to put your pick in perfect position for the up-sweeps that follow.

♩ = 40-112

## ACKNOWLEDGMENTS

This book is dedicated to my sister, Tonia, for tolerating the racket that emanated from my bedroom during my developmental stages as a guitarist; to my parents, Don and Sonja Nelson, for their unconditional love and support while I pursued a career in the uncertain music industry; and especially to my wife, Amy, who offered constant encouragement throughout this project, and my twin daughters, Sophie and Claire, who were born during the writing of *Guitar Aerobics*.

I'd also like to thank all of the musicians, past and present, who have inspired and influenced me throughout the years.

## ABOUT THE AUTHOR

**Troy Nelson** is a 20-year veteran of the six-string. First picking up the instrument during the heyday of “hair metal,” some of his first guitar heroes included George Lynch, Paul Gilbert, and Nuno Bettencourt. After high school, he studied jazz guitar for two years at Milwaukee Area Technical College, where his musical influences expanded to include Charlie Parker, John Coltrane, and Wes Montgomery, among others. In 1994, he began his relationship with Hal Leonard, for whom he has edited, proofread, and transcribed numerous guitar publications. One of those projects included *Guitar One*, a magazine the company launched in 1995. While at the magazine, Nelson held the titles of Music Editor, Senior Editor, and Editor-in-Chief. After a decade at the magazine, he resigned from *Guitar One* to pursue his other love, football. He spent the 2005 NFL season with the New York Jets, during which time he wrote all of the team’s gameday stories, as well as numerous player features, fantasy football previews, and NFL Draft scouting reports. Later that year, however, Hal Leonard launched *Guitar Edge* magazine and lured Nelson back to the music biz as its Senior Editor, a title he holds today. Nelson currently resides in Athens, Georgia, with his wife, Amy, and twin daughters, Sophie and Claire. When he’s not busy playing guitar or changing diapers, he attends classes at the University of Georgia, home

# GUITAR NOTATION LEGEND

Guitar music can be notated three different ways: on a *musical staff*, in *tablature*, and in *rhythm slashes*.

**RHYTHM SLASHES** are written above the staff. Strum chords in the rhythm indicated. Use the chord diagrams found at the top of the first page of the transcription for the appropriate chord voicings. Round noteheads indicate single notes.

**THE MUSICAL STAFF** shows pitches and rhythms and is divided by bar lines into measures. Pitches are named after the first seven letters of the alphabet.

**TABLATURE** graphically represents the guitar fingerboard. Each horizontal line represents a string, and each number represents a fret.

## DEFINITIONS FOR SPECIAL GUITAR NOTATION

**HALF-STEP BEND:** Strike the note and bend up 1/2 step.

**WHOLE-STEP BEND:** Strike the note and bend up one step.

**GRACE NOTE BEND:** Strike the note and immediately bend up as indicated.

**SLIGHT (MICROTONE) BEND:** Strike the note and bend up 1/4 step.

**BEND AND RELEASE:** Strike the note and bend up as indicated, then release back to the original note. Only the first note is struck.

**PRE-BEND:** Bend the note as indicated, then strike it.

**PRE-BEND AND RELEASE:** Bend the note as indicated. Strike it and release the bend back to the original note.

**UNISON BEND:** Strike the two notes simultaneously and bend the lower note up to the pitch of the higher.

**VIBRATO:** The string is vibrated by rapidly bending and releasing the note with the fretting hand.

**WIDE VIBRATO:** The pitch is varied to a greater degree by vibrating with the fretting hand.

**HAMMER-ON:** Strike the first (lower) note with one finger, then sound the higher note (on the same string) with another finger by fretting it without picking.

**PULL-OFF:** Place both fingers on the notes to be sounded. Strike the first note and without picking, pull the finger off to sound the second (lower) note.

**LEGATO SLIDE:** Strike the first note and then slide the same fret-hand finger up or down to the second note. The second note is not struck.

**SHIFT SLIDE:** Same as legato slide, except the second note is struck.

**TRILL:** Very rapidly alternate between the notes indicated by continuously hammering on and pulling off.

**TAPPING:** Hammer ("tap") the fret indicated with the pick-hand index or middle finger and pull off to the note fretted by the fret hand.

**NATURAL HARMONIC:** Strike the note while the fret-hand lightly touches the string directly over the fret indicated.

Harm.

T 12

**PINCH HARMONIC:** The note is fretted normally and a harmonic is produced by adding the edge of the thumb or the tip of the index finger of the pick hand to the normal pick attack.

P.H.

T 5

**HARP HARMONIC:** The note is fretted normally and a harmonic is produced by gently resting the pick hand's index finger directly above the indicated fret (in parentheses) while the pick hand's thumb or pick assists by plucking the appropriate string.

H.H.

T 7(19)

**PICK SCRAPE:** The edge of the pick is rubbed down (or up) the string, producing a scratchy sound.

P.S.

T x

**MUFFLED STRINGS:** A percussive sound is produced by laying the fret hand across the string(s) without depressing, and striking them with the pick hand.

T x

**PALM MUTING:** The note is partially muted by the pick hand lightly touching the string(s) just before the bridge.

P.M.

T 0 0 0 0

**RAKE:** Drag the pick across the strings indicated with a single motion.

rake

T x 5

**TREMOLO PICKING:** The note is picked as rapidly and continuously as possible.

T 5 7

**ARPEGGIATE:** Play the notes of the chord indicated by quickly rolling them from bottom to top.

T 5

**VIBRATO BAR DIVE AND RETURN:** The pitch of the note or chord is dropped a specified number of steps (in rhythm), then returned to the original pitch.

w/ bar

T 0 (0)

**VIBRATO BAR SCOOP:** Depress the bar just before striking the note, then quickly release the bar.

w/ bar

T 4 5 7

**VIBRATO BAR DIP:** Strike the note and then immediately drop a specified number of steps, then release back to the original pitch.

w/ bar

T 7 7 7

# ADDITIONAL MUSICAL DEFINITIONS

(*accent*) • Accentuate note (play it louder).

(*accent*) • Accentuate note with great intensity.

(*staccato*) • Play the note short.

• Downstroke

• Upstroke

*D.S. al Coda*

- Go back to the sign ( % ), then play until the measure marked "To Coda," then skip to the section labelled "Coda."

*D.C. al Fine*

- Go back to the beginning of the song and play until the measure marked "Fine" (end).

**Rhy. Fig.**

- Label used to recall a recurring accompaniment pattern (usually chordal).

**Riff**

- Label used to recall composed, melodic lines (usually single notes) which recur.

**Fill**

- Label used to identify a brief melodic figure which is to be inserted into the arrangement.

**Rhy. Fill**

- A chordal version of a Fill.

**tacet**

- Instrument is silent (drops out).

- Repeat measures between signs.

- When a repeated section has different endings, play the first ending only the first time and the second ending only the second time.

**NOTE:** Tablature numbers in parentheses mean:

- The note is being sustained over a system (note in standard notation is tied), or
- The note is sustained, but a new articulation (such as a hammer-on, pull-off, slide or vibrato) begins, or
- The note is a barely audible "ghost" note (note in standard notation is also in parentheses).

## 365 EXERCISES!

### ONE FOR EVERY DAY OF THE YEAR!

The accompanying audio CDs include all 365 workout licks plus play-along grooves in every style, at eight different metronome settings.

#### MUSICAL STYLES COVERED:

- Rock
- Blues
- Jazz
- Metal
- Country
- Funk

#### TECHNIQUES COVERED:

- Alternate Picking
- Arpeggios
- Sweep Picking
- String Skipping
- Legato
- String Bending
- Rhythm Guitar

#### BENEFITS:

- Increased Speed
- Improved Dexterity
- Better Pick- and Fret-hand Accuracy
- Finger Independence
- Increased Lick Vocabulary

Troy Nelson is the former Editor-in-Chief of *Guitar One* magazine and current Senior Editor of *Guitar Edge* magazine.
